

Barbara & Derek

Full time teacher & Ex Postman

We joined Kleeneze to supplement our income on Derek taking redundancy from Royal Mail. We have already achieved in our second month our aim to earn at least £400 per month. We work Kleeneze part-time only and were thrilled at having qualified for a gift in our first month followed by a free box of catalogues.

We have found the freedom of working the business for ourselves so refreshing and our customers have been really great - we realise that it is essential to give a good service and in return that is rewarded. We are presently also venturing into the Cabouchon party plan side and this is proving profitable already. The support we have had from the Pegasus group and Kleeneze has been invaluable.

We are very excited at the success we have achieved so far and are looking forward to building on this. Our outlook has now changed and we are looking forward to eventually working the business full-time and achieving the goals we have now set.
