

CHRIS & CAROLE

We joined Kleeneze in July 08 to earn a few extra pounds for some extra luxuries like holidays and for some extra savings. When we 1st joined Kleeneze we only thought we would be earning about £20 or £30 a week extra doing a few hours on night and weekend were we could not realising how easy it was to earn a lot more. We did Kleeneze as well as both doing full time shift working jobs and raising a family. We started within the 1st few months getting about £150 a month to now getting around the £300 which includes a 13% bonus target level and we have gradually built up a small customer base of around 300+ customers and growing and are now starting to do the team building side of the Kleeneze. The other plus side of the Kleeneze job is that we now both are getting a lot fitter with all the extra walking round delivering and picking up catalogues and parcels.
