

Martin & Marie

Ex Industrial cleaner/Ex Care Assistant

Due to ill health recently Martin was made redundant, not only did we lose his full time income but also due to his illness he has been unable to drive.

So we had to re-arrange our plans and work a system to be able to do everything on foot around our 2 young children.

Below is our income for the last 28 days, so it proves if you have a strong enough reason why and follow your plan you can achieve anything.

This is our biggest Cheque so far working the hours that suits us.

So if we can do it all on feet. Why not you?
