

MARK & SHARON

SELF-EMPLOYED GAS FITTER

Find below our income for our 1st 8 weeks in the business working spare time around our 4 Children and other commitments.

As you can see our income has increased by £390 within 28 days. We decided to increase the amount of catalogues we put out, and show the Opportunity to others and now have our first team member who also earned over £200 in his first month.

My best advice is to follow the system and action the free advice that is given
