Having come from another Network Marketing company and not seeing much success, we were a little sceptical as to weather or not Kleeneze would be for us.

However we could see straight away why people would buy from the catalogue and hey after all we were only looking for an extra £50 a week, so we gave it a go. In our first full 4 week period we hit 10% on the Kleeneze pay plan making over £200 and decided that this was too good an opportunity not to share with others.

Not too long after, we started to build a team. It has been an amazing journey. We are at 21% on the Kleeneze pay plan and are looking forward to reaching the all important Gold level in the next couple of periods.

If we had listened to what over people were saying we would never be where we are today and would never have had the privilege of making a difference in someone else's life. Running our own business has taught us so many things, but the best thing of all is learning and making money together as a team.
